

## Safety relay emergency stop/protective door, 230VAC, 3 enabling paths

Part no. **ESR5-NO-31-230VAC**  
 Catalog No. **119380**

EL-Nummer **4133320**  
 (Norway)

## Delivery program

| Operating ambient temperature min.   |                   | °C | -20  |
| Operating ambient temperature max.   |                   | °C | 55   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.   |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.   |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Meets the product standard's requirements.   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   |                   |    | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   |                   |    | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  |                   |    | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   |                   |    | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |                   |    |  |
| 10.9.2 Power-frequency electric strength   |                   |    | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   |                   |    | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   |                   |    | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   |                   |    | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility  |                   |    | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function  |                   |    | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## Technical data ETIM 8.0

|  |  |   |                      |
|--|--|---|----------------------|
| Relays (EG000019) / Device for monitoring of safety-related circuits (EC001449)  |  |   |                      |
| Electric engineering, automation, process control engineering / Low-voltage switch technology / Monitoring equipment (low-voltage switch technology) / Device for monitoring of safety-related circuits (ec1@ss10.0.1-27-37-18-19 [AC0304011]) |  |   |                      |
| Model  |  |   | Basic device         |
| Suitable for monitoring of position switches   |  |   | Yes                  |
| Suitable for monitoring of emergency-stop circuits   |  |   | Yes                  |
| Suitable for monitoring of valves  |  |   | No                   |
| Suitable for monitoring of optoelectronic protection equipment   |  |   | No                   |
| Suitable for monitoring of tactile sensors   |  |   | No                   |
| Suitable for monitoring of magnetic switches   |  |   | No                   |
| Suitable for monitoring of proximity switches  |  |   | No                   |
| Type of electric connection  |  |   | Screw connection     |
| Rail mounting possible   |  |   | Yes                  |
| Rated control supply voltage U <sub>s</sub> at AC 50HZ   |  | V | 0 - 26.4             |
| Rated control supply voltage U <sub>s</sub> at AC 60HZ   |  | V | 20.4 - 230           |
| Rated control supply voltage U <sub>s</sub> at DC  |  | V | 0 - 0                |
| Voltage type for actuating   |  |   | AC                   |
| With detachable clamps   |  |   | Yes                  |
| Evaluation inputs  |  |   | One- and two-channel |
| With start input   |  |   | Yes                  |
| With muting function   |  |   | No                   |
| With feedback circuit  |  |   | Yes                  |
| Release-delay  |  | s | 0 - 0                |
| Number of outputs, safety related, undelayed, with contact   |  |   | 3                    |

|   |  |    |         |
|---|--|----|---------|
| Number of outputs, safety related, delayed, with contact          |  |    | 0       |
| Number of outputs, safety related, undelayed, semiconductors      |  |    | 0       |
| Number of outputs, safety related, delayed, semiconductors        |  |    | 0       |
| Number of outputs, signalling function, undelayed, with contact   |  |    | 1       |
| Number of outputs, signalling function, delayed, with contact     |  |    | 0       |
| Number of outputs, signalling function, undelayed, semiconductors |  |    | 0       |
| Number of outputs, signalling function, delayed, semiconductors   |  |    | 0       |
| Type of safety according to IEC 61496-1                           |  |    | None    |
| Stop category according to IEC 60204                              |  |    | 0       |
| Performance level according to EN ISO 13849-1                     |  |    | Level e |
| SIL according to IEC 61508  |  |    | 3       |
| With approval for BG BIA  |  |    | No      |
| With approval according to UL                                     |  |    | Yes     |
| Width   |  | mm | 22.5    |
| Height  |  | mm | 99      |
| Depth   |  | mm | 114.5   |
| With approval for TÜV   |  |    | Yes     |
